

# CHALET ARTEMIS

*"The most  
glamorous  
ski chalet  
in St. Anton"*

Sean Newsom - The Times 2020

Where ultimate **Luxe** meets **Personal Touch**

## The heritage

Andrew Dunn took the best features from the countless chalets that Scott Dunn have managed over the years and combined them into one uber chalet. The chalet had a complete refurbishment in 2020. In essence he has created a boutique hotel just for its guests.

*"Thank you so much for an indulgent luxuriant week of superb food, excellent skiing and indulgent pampering."*

Guest

*"A perfect place for three generations to chat and play together."*

Guest

## Memorable experiences

Attention to detail where everything is the best available. The warm and caring chalet staff provide a genuine flexible service that perfectly matches the guests' requirements. We ensure that our guests have a seamless beautiful alpine experience.

## Chalet style

Chalet Artemis has been decorated to reflect alpine warmth and hospitality. Each room has its own warm colour scheme and decorated with various statuettes and interesting art with lamps designed by Tyson of London.

The walls are of distressed wood panelling adding to the alpine charm. Notwithstanding the alpine warmth the chalet is completely modernised in the areas that count.

A 7ft statue of Goddess Artemis dominates the terrace. Worthy of note is the Paul Smith carpet that sweeps across the living area that perfectly frames the Ralph Benz designed sofas.

*"...It's as dark and interesting as one of the wines he serves at dinner.... With reclaimed wooden paneling, weathered to a driftwood texture and stained the colour of toast... lush colour schemes, burgundy and slate in my room, butterscotch and blue in another..."*

**Sean Newsom of The Times, on a recent visit**

## The basic facts

- A detached chalet over 4 floors with 500 sqm (5400 sqf) of living space with six large equally sized bedrooms sleeping 12 adults, with extra beds available for children
- The top floor is dedicated to dining and relaxation with outside terrace, log fire, wine wall, dining table for 12, and ample living room seating. The separate professional kitchen is situated here
- There is a dedicated cinema room seating 12
- The wellness area is in the lower ground floor including an 8m indoor swimming pool with jet stream, steam room, wet room, sauna, massage room and outside hot tub
- A large boot room with heated boot warmers and individual cubbyholes for ski helmets and kit is situated on the lower ground floor
- There is a lift supplying all floors
- A dedicated driver service in the luxury 7 seater Artemis mini-van is available within St. Anton

*"I've simply never experienced chalet food like it. Each stay is prefaced by a catering questionnaire to find out your desires and dislikes and the menu produced has remarkable scope."*

**Jo Davey, The Week Portfolio**

## The dining experience

We have the most experienced Chalet Chef in St. Anton; Rosie. After gaining a Cordon Bleu Diploma, Rosie has worked in yachts in Monaco and Michelin starred restaurants ending in the famous Noma in Denmark.

At the top end guests can enjoy the very best "haute cuisine", but we are not offering a one-stop cuisine style. Flexibility is at the core of our service, whether that be hamburgers for a cinema evening, a curry evening or a Thai feast.

All tastes are catered for, vegan, vegetarian, pescatarian, gluten free and allergies are carefully monitored.

And of course our 300 bottle wine wall is stocked with superb wines chosen by Dunn himself.

Riedel Glasses and Arthur Price cutlery add that special touch.

## The best sleep in St. Anton

Emperor size beds, with the most comfortable Hypnos cashmere mattresses. The Heirloom sheets favoured by Royalty are so soft and silky – they are to die for. Black out curtains for the occasional sleep-in. Complete sound proofing for calm and zen.

## Indulgent bathing

The ensuite bathrooms, with rainforest showerheads, baths and top Italian designed double basins, are present in all bedrooms.

Huge and luxurious "White Company" towels, bath mats and Heirloom dressing gowns provide a bath time pampering experience that is unequalled.

Our bath products are selected with a great deal of care reflecting the style and scent of this alpine wonderland.

*"The level of quality that you  
would expect from the best hotels  
in the world."*

**Arun Carr, Spear's**

## Five star wellness floor

Our dedicated wellness area provides a full spa suite. The indoor pool is 8m x 3m and incorporates a Jet Stream system allowing for swimming exercise.

We have installed a minimum chlorine system that judges the levels on a continuous basis. There are no chlorine odours at all. There is a steam room, wet room, sauna, massage room, and outdoor hot tub.

## Having fun and relaxing

The chalet has a built-in Sonos sound system with Bowers and Wilkins speakers.

There is chess, backgammon and many other board games.

*"Highlight included an impromptu TOP GUN evening in the cinema."*

**Guest**

Each bedroom has a flat-screen television should guests require a bit of own time, with a big selection of UK channels (or other countries' television channels if required) and access to Netflix and Amazon etc.

The cinema is definitely not just a room with a television screen. Oh no, this is the real thing. Guests can watch key sporting events, current movie hits, old favourites or funny family films, the choice is great. To complete the experience how about some popcorn, yes, the chalet has its own machine.

*"Rob's morning tea round is the only thing encouraging me to poke my head out of from the emperor-sized cocoon, a bed so big I can't reach any sides no matter how hard I starfish and stretch across it..."*

**Jo Davey, The Week Portfolio**

## Service ethic

- Attention to detail, from early morning tea to rooms being serviced twice a day
- We try and match guests with their favourite food, wines and cocktails
- We look to inform and help with all St. Anton activities whether that be restaurant suggestions and bookings, local events, ski instructors and ski schools, nannies or babysitters
- And of course it's the guests' holiday, we don't shoe-horn them in a regime, flexibility is at the heart of everything we offer

The image shows the interior of a lift with red tufted leather walls and ceiling. A horizontal shelf is positioned in the middle. The text "It's even got a lift..." is centered on the shelf. The floor is a light-colored carpet. On the right side, there are some control panels and a small display screen.

It's even got a lift...

## Location

Chalet Artemis is in the exclusive Nasserein district of St. Anton am Arlberg.

The chalet is located 5 minutes walk to the ski lifts & 10 minutes to the pedestrianised town centre.

### Getting Here

Travel to St. Anton am Arlberg is quick and easy with good road & train links. Unlike many resorts St. Anton is reached from Innsbruck by a gentle incline via motorway roads with no windy roads to negotiate.

### International Airports

- Innsbruck - 1 hour
- Zurich - 3 hours

## The Skiing

### The largest linked ski area in Austria

St. Anton am Arlberg is a world famous deep snow Mecca. It's not Canada... it's better.

- 300km piste
- 200km deep snow routes
- Huge ski touring

The Flexibahn lift links St. Anton with the Lech Zürs area adding a further 305km of lift linked skiing.

*"Few places are heaven on earth -  
this is one of them."*
